The film is a classic of drama with many important stars well known at the public: Ben Affleck, Josh Hartnett, Kate Beckinsale and John Voight. It is the story of two bold pilots who are both in love with a beautiful and sensitive nurse in the background of the Japanese attack to "Pearl Harbour", the tragic event where about 2300 Americans soldiers died on 7 December 1941, at dawn. The unexpected drive took the American fleet unprepared when the hell roused in the sky of Pearl Harbor.

On the whole the film is quite flowing and has a lot of imposing scenes which makes adrenaline go up. Every sequences is accurately portrayed: contrasts, special effects, lights. Some scenes have been rielaborated at the computer and old time pictures have been used. A film about love force and about bravery in the context of that dramatic moment. It's a story rich of passion, romanticism and honour.
