

# Home page of Luca Morandini

Welcome, whoever you are,

I am a GIS Consultant based in Italy, and this is my home page.

If you are searching for a GIS-oriented software developer and/or GIS project manager, I could be the one.

Do not take my word for it, check my CV ([English](#) or [Italian](#)) and ask for the references there.

If you would like to [contact me](#), do it at your ease.

One last thing: you may find something of interest in the [projects](#) section, which contains links to open-source projects I joined, and live-sites of applications I developed.

Best regards,

Luca Morandini.
